***THE BIGGEST MOOT EVER IN PAKISTAN**

FOREWARDS:

Though, research in science has assumed immeasurable dimensions with its classification into different fields of study, yet, there are matters of mutual interest to give a comprehensive treatment to the subject under investigation. In surmounting the problems in respective areas, one invariably is forced to encroach other disciplines. There are a number of instances of joint ventures, involving scientists from divergent fields of study, to develop consensus to conclude. In the strict sense, research at top levels has resisted to be colonized. For example,

Study in genetics, has an impact on a number of physical and biological sciences.

Research in crystallography is extensively shared by physicists, chemists and chemical engineers etc. alike.

Computer simulation is matter of universal interest.

Environmental studies have motivated almost all the sectors of science to share responsibilities in the wake of growing pollution, so on and so forth

The kind of forum, thus, contemplated by the science international is aimed at providing a common room from various fields of pure, applied and social scientists. for direct communication. The cross breeding of ideas certainly helps in the exploration of new avenues in the world of science.

INTRODUCTION:

Imperial College of Business Studies (ICBS), Lahore was established in 1991 chartered by the Government of Punjab as independent degree awarding institution and its degrees are recognized by the Higher Education Commission Pakistan, Pakistan Engineering Council, Pakistan Council for Architects & Town Planning, National Computing Education Accreditation Council and by the institutions abroad. The ICBS serves the national and

international community through a broad spectrum of BS, MS/MPhil and PhD programs in multiple disciplines including Engineering, Management Sciences, Computing, Information Technology, Applied Technology, Social Sciences, Natural Sciences, Commerce, Architecture and Fashion Designing. Also provide professional training, public service, research, creative activities and outreach programs. Imperial College of Business Studies in collaboration with Science International is holding 5th International Science Conference, September 14-16th, 2015, at its campus in Lahore, Pakistan.

Science International (Lahore), a multidisciplinary ISI indexed journal, entered in the international arena of scientific publications in July 1988 to promote scientific research and other academic activities round the world. It is a broad based bimonthly journal (refereed), published both in print and online version, devoted to all basic and applied sciences. A section of social sciences was introduced in July 2012. To its credit go over 12,000 research publications, abstracted by;
